

# Serving Church & Parachurch Communities

Kingdom Partner Solutions, LLC

A person wearing a dark suit is shown from the waist down, with their hands clasped together. They are standing on a light-colored carpeted floor. In the background, there is a blurred office environment with a glowing blue light source, possibly a screen or a lamp, and a blue wall. The overall atmosphere is professional and modern.

**PASSIONATE.  
FOCUSED.  
DYNAMIC.  
SMART.**

# Kingdom Partner Solutions is excited to work with you!

The marriage of the passionate pursuit of Kingdom purposes alongside KPS's laser focused, strategic planning, execution tools and processes can truly provide a dynamic impact. Imagine the possibilities with every team member pulling the same direction, supporting one another toward agreed upon, strategic goals, using effective tools to track progress and making course corrections throughout the year. Envision doing that not by working harder, but by working smarter and arriving at the finish line of your annual plan, as a team, rested and energized to engage in the next adventure God has for you.

Those who lead in formal church and para-church ministries often struggle to manage the demands of leadership in these unique environments. Budget constrictions, constituency expectations and lack of formal leadership and management training often combine to undermine organizational health & productivity, creating personal vulnerability. Unfortunately many Christian leaders are at risk, not from a lack of passion or calling but from the lack of the right tools and training. Leading complex organizations such as church or para-church ministries that are reliant on volunteers and the giving of constituents, requires a unique skill set with a compelling vision and effective tools and processes. This is particularly true in our current, high demand, immediate gratification culture.

Sound too good to be true? It's exactly what Jesus promised if we would learn from him and do life his way (Matthew 11:29). After many years of seeing the KPS process bring powerful results to Christian leaders in the marketplace with verifiable examples of our tools having a significant impact in various ministry settings, we are confident that Kingdom Partner Solutions can help your ministry not only achieve its goal, but do it with health and deep joy.

*“Achieving  
ministry goals  
with health & joy.”*
